Teck Announces COVID-19 Precautionary Measures for its Annual Meeting of Shareholders, Investor and Analyst Day and Modelling Workshop

Vancouver, B.C. – Teck Resources Limited (TSX: TECK.A and TECK.B, NYSE: TECK) (“Teck”) announced today that in light of ongoing concerns related to the spread of COVID-19, and in order to mitigate potential risks to the health and safety of its shareholders, employees, communities and other stakeholders, Teck is encouraging shareholders and others not to attend in person Teck’s annual meeting to be held on Tuesday, April 21, 2020. Shareholders are encouraged to vote on the matters before the meeting by proxy, and to view the annual meeting online by way of a live webcast that will be available on Teck’s website at www.teck.com. Shareholders will be able to ask questions of management through the webcast at the conclusion of the meeting as usual.

Teck’s annual Investor and Analyst Day, previously planned to take place in person in Toronto on April 1, 2020, will be replaced by two conference calls with concurrent webcasts on Wednesday, April 1, 2020. The first call, from 11:00 a.m. to 12:00 p.m. Eastern Time, will cover the annual Sustainability Review. The second call, from 1:00 p.m. to 2:30 p.m. Eastern Time, will cover the QB2 Project Update and annual Business Review. Again, participants will be able to ask questions through the conference call facilities, and materials to accompany the calls will be available online.

In addition, Teck’s Modelling Workshop, previously planned to take place in person in Toronto on April 2, will be replaced with a conference call and webcast on Thursday, April 2, 2020 from 8:30 a.m. to 12:30 p.m. Eastern time.

These changes, made out of an abundance of caution, are intended to reduce potential risks associated with larger gatherings and travel, and are part of Teck’s COVID-19 response plan. The conference call and webcast details for the Annual Meeting of Shareholders, Investor and Analyst Day and Modelling Workshop are set out below.

About Teck
