

Quintette No Shoot Boundary Notice

With moose hunting season fast approaching, Teck would like to remind outdoor enthusiasts and anyone who may be unfamiliar with the Quintette property to please respect the No Shoot Boundary outlined in this map. The boundary is designed with everyone's safety in mind as there are ongoing activities related to the proposed reopening of the Quintette mine taking place on site and workers are active in the area.

Please contact Ray Proulx with any questions or concerns at 1.877.544.3824 or drop by the Tumbler Ridge office. Thank you for your continued support.
