## Teck Announces Additional US\$500 Million Share Buyback

**Vancouver, B.C.** – Teck Resources Limited (TSX: TECK.A and TECK.B, NYSE: TECK) (“Teck”) announced today that it intends to repurchase up to US\$500 million of Class B subordinate voting shares. These proposed share repurchases are in addition to the previously announced approximately \$635 million in aggregate of dividends and share repurchases for 2022.

All share repurchases are expected to be made in accordance with Teck’s previously announced normal course issuer bid program, or any renewal thereof, or by such other means as may be permitted under applicable securities laws. The current program authorizes Teck to purchase up to 40 million Class B subordinate voting shares through the period ending November 1, 2022. Any repurchases following that date may depend on regulatory approval of a renewed normal course issuer bid program. Teck intends to purchase shares opportunistically. The company will determine the timing of any purchases, and may repurchase fewer or a greater number of shares, subject to the requirements of the issuer bid program and applicable securities laws.
