Re: Teck Anglo American merger

Dear Minister Joly,

On behalf of the BC Chamber of Commerce, I am writing to convey our strong support for the announced merger between Teck Resources and Anglo American. This transaction represents a significant step forward for Canada's economic strength and competitiveness in the global critical minerals market.

The combined company, Anglo Teck, will be one of the world's largest critical mineral producers. By establishing its headquarters in British Columbia, it will anchor thousands of high-quality jobs, sustain critical investments, and reinforce Canada's reputation as a secure, reliable, and responsible supplier of the resources that underpin clean energy and advanced manufacturing. The economic benefits will extend well beyond British Columbia, strengthening supply chains, trade, and investment across the country.

Equally important, Teck and Anglo American have confirmed their commitments to uphold existing agreements with Indigenous governments, labour, and local communities. This continuity provides the operational stability and cultural consistency that Canada's mining regions rely upon, while also supporting the reconciliation and workforce priorities that matter to Canadians.

Minister, Canada's ability to compete globally depends on resilient companies headquartered here. We urge you to lend your support to this merger and ensure the federal government recognizes its importance for Canada's long-term prosperity, both in British Columbia and across the nation.

Sincerely,

Alex McMillan
Chief Executive Officer (Interim)

Cc: Minister Tim Hodgson
Premier David Eby
