

**Notice of Application and Directions on Procedure
Application to Export Electricity to the United States
Teck Metals Ltd.**

By an application dated 26 September 2023, Teck Metals Ltd. (the Applicant), has applied to the Canada Energy Regulator (the CER) under Division 2 of Part 7 of the *Canadian Energy Regulator Act* (the Act) for authorization to export up to 3,000,000 MWh of combined firm and interruptible energy annually, for a period of 10 years. The Applicant, or its affiliates, has an interest in the following generation or transmission facilities in Canada:

Generation Facilities:

- Waneta Hydroelectric Generating Station, Trail, BC
- SunMine Solar Energy Facility, Kimberley, BC

Transmission Facilities

- Waneta Switching Station, Trail, BC
- Emerald Switching Station, Trail, BC
- Four 60kV Transmission Lines between Waneta Switching Station and Emerald Switching Station
- Line 71, a 230 kV transmission line between Waneta Hydro Station and Bonneville Power Administration in the United States, also interconnected to BC Hydro at Nelway Station

The Commission of the Canada Energy Regulator (the Commission) wishes to obtain the views of interested parties on this application before issuing a permit or recommending to the Governor in Council that the application be designated for a licensing procedure. The Directions on Procedure that follow explain in detail the procedure that will be used.

1. The Applicant shall provide a copy of the application by email to any person who requests one by emailing **engagetrail@teck.com**. The application is also publicly available on the CER's website at **<https://apps.cer-rec.gc.ca/REGDOCS/Item/View/94151>**.
2. Written submissions that any interested party wishes to present shall be filed online with the CER in care of the Secretary of the Commission, and emailed to the Applicant, by 26 October 2023.
3. Pursuant to subsection 359(2) of the Act, the Commission is interested in the views of submitters with respect to
 - (a) the effect of the exportation of the electricity on provinces other than that from which the electricity is to be exported; and
 - (b) whether the Applicant has
 - (i) informed those who have declared an interest in buying electricity for consumption in Canada of the quantities and classes of service available for sale; and
 - (ii) given an opportunity to buy electricity on conditions as favourable as the conditions specified in the application to those who, within a reasonable time after being so informed, demonstrate an intention to buy electricity for consumption in Canada.
4. Any answer to submissions that the Applicant wishes to present in response to items 2 and 3 of this Notice of Application and Directions on Procedure shall be filed with the CER in care of the Secretary of the Commission and emailed to the party that filed the submission by 10 November 2023.
5. For further information on the procedures governing the Commission's examination, contact the Secretary of the Commission at (403) 292-4800 (telephone).

The Canada Energy Regulator is dedicated to the safety and well-being of its staff, Indigenous communities, the public, and all those with whom it works closely. For information on how the CER is continuing its regulatory oversight during the COVID-19 pandemic, please refer to the:
