

Quebrada Blanca Phase 2

Progress Gallery

February 2021

Teck

Mine

Structural steel and
concrete at primary
crusher, apron feeder
installed

December 2020

Concentrator

Structural steel pre-assembly of the stacker at the stockpile area

January 2021

Concentrator

Concrete works at
reclaim tunnel line 2
and stacker foundation
(on right)

January 2021

Concentrator

Grinding line 1
trunnion installations

December 2020

Concentrator

Aerial view of grinding lines (line 1 SAG and ball mills floating, line 2 concrete complete)

January 2021

Concentrator

650m³ rougher flotation cells, commenced mechanical installations

January 2021

Concentrator

Concentrate/bulk
thickener foundations
and structural steel
erection

January 2021

Concentrator

Tailings thickener wall
and underflow structure

January 2021

Tailings Management Facility

Coffer Dam completion,
with liner installation

November 2020

Tailings Management Facility

Starter Dam continues mass fill with underflow drains completed

December 2020

Teck

Pipeline

Lowering in the first
column of 48-inch
Make-up Water
System pipeline

December 2020

Pipeline

Concrete placement at
Make-up Water
System Pump Station
5, surge tank (lower
right)

January 2021

Teck

Pipeline

Puerto Patache 220kV
GIS building,
substation and
electrical rooms

November 2020

Port Onshore

Pump Station 1 installation for Make-up Water System

December 2020

Port Onshore

Concentrate
Thickener and Filter
Plant building (on left)

January 2021

Port Onshore

Desalination plant and
building, pipe racks
and RO treatment
cells installed

November 2020

Port Offshore

Aerial view of Jetty, preparations for pile driving at trestle 8

January 2021

Port Offshore

Sub-sea pipe
launching structure
and temporary service
dock

January 2021

Infrastructure - Power

Completion of ~900m tunnel
under the Quebrada
Guatacondo for 220kV
transmission

January 2021

Teck

Infrastructure

Completion of the
Concentrator Camp with
new COVID expansion
modules (bottom right)

November 2020

Infrastructure

Remote Integrated Operations Center in Santiago

January 2021
