Executive Summary

Teck is committed to responsible resource development with a focus on operating sustainably, ensuring the health and safety of our people, protecting the environment, and working to build strong relationships with communities and Indigenous Peoples.

In 2020 to 2021 Teck undertook self-assessments at all operating sites to review conformance to the membership requirements of the International Council on Mining and Metals (ICMM). Independent third-party assurance with PricewaterhouseCoopers LLP (PwC) was undertaken at Highland Valley Copper Operations (HVC) and Line Creek Operations (LCO) in 2021 to validate the self-assessment ratings.

Background

Teck is a member of ICMM, which is an international organization dedicated to improving the environmental, social and governance performance of the mining and metals industry. ICMM members are required to measure performance against the ten **ICMM Principles, Position Statement** commitments, the Performance Expectations (PEs) (together the Mining Principles Framework) and to report in line with the Global Reporting Initiative (GRI), a sustainability disclosure standards body **Global Reporting Initiative (GRI) Standards**.

The objective of the PEs is to set minimum requirements for responsible operational level practices for the mining

sector. An organization's performance against the PEs is required to be validated by an independent third-party assurance provider, with results disclosed on an annual basis in accordance with the ICMM **Assurance and Validation Procedure**. The PE validation is comprised of the following:

- **Self-assessments of all operations subject to PE validation**
 - Confirmation of the existence and integrity of systems and/or practices relating to implementation of the PEs, to the extent that they are applicable.
- **Prioritization of operations for third-party validation**
 - A prioritisation process to determine the sequence the operations will be subject to third-party validation in the subsequent three-year validation cycle.
- **Third-party validation**
 - Independent validation of the reasonableness and authenticity of statements made in self-assessments. This process will be conducted by qualified validation service providers (VSPs). VSPs must meet ICMM requirements for independence, experience, expertise and lack of conflicts of interest.
- **Disclosure**
 - Annual public disclosure of PE validation activities. This can be published on a member's website or in a

sustainability or corporate report.

The possible outcomes for the validation of an individual PE are 'Meets', 'Partially Meets', and 'Does not Meet' as defined below:

- **Meets:** Systems and/or practices related to the PE have been implemented and there is sufficient evidence that the intent of the PE is being met. However, opportunities for improvement may still remain.
- **Partially Meets:** Systems and/or practices related to meeting the intent of the PE have been only partially implemented. There are gaps that may contribute to an inability to meet the intended outcome of the PE, or insufficient evidence can be provided to demonstrate that the activity is aligned to the intent of the PE.
- **Does not Meet:** Systems and/or practices required to support the core intent of the PE are not in place, are not being implemented or cannot be evidenced.

Once the list of prioritized operations for third-party validation is complete, members will schedule the validation at times that are suitable for their organization within the three-year cycle.

Prioritization

Teck prioritized the ICMM Mining Principles Framework implementation at Operations based on the following criteria:

- **Location:** Operations within Canada were prioritized for self-assessment in 2020 and Chilean and American Operations in 2021. Using this same approach, Canadian operations were validated by an independent third-party first, followed by Chilean and American operations.
- **Integrated Assurance Schedule:** Teck developed an integrated assurance program, which came into effect in 2022. Integrated assurance refers to an operation completing one assurance activity to respond to multiple different criteria. The integrated assurance schedule aligns all of Teck's membership assurance activities to be conducted as an integrated assurance activity over a three-year assurance cycle.

Self-Assessment and/or Validation Status

After a self-assessment, third-party validation of those results should occur within a three-year window. Ongoing, a third-party validation will then occur once every three years, for each operation. The following self-assessment and/or validation activities have been completed or are planned at Teck operations:

Completed self-assessments against the ICMM Performance Expectations at:

- Teck Corporate (2020)
- Highland Valley Copper Operations (HVC), Canada (2020)
- Line Creek Operations (LCO), Canada (2020)
- Fording River Operations (FRO), Canada (2020)
- Greenhills Operations (GHO), Canada (2020)
- Elkview Operations (EVO), Canada (2020)
- Trail Operations (TRL), Canada (2020)
- Red Dog Operations (RDO), United States of America (2021)
- Quebrada Blanca Operations (QB), Chile (2021)
- Carmen de Andacollo Operations (CdA), Chile (2021)

Completed validation against the ICMM Performance Expectations at:

- Teck Corporate (2021)
- Highland Valley Copper Operations (HVC), Canada (2021)
- Line Creek Operations (LCO), Canada (2021)

Planned validation with an external third-party against the ICMM Performance Expectations at:

- Fording River Operations (FRO), Canada (2022)
- Greenhills Operations (GHO), Canada (2022)
- Elkview Operations (EVO), Canada (2022)
- Trail Operations (TRL), Canada (2022)
- Red Dog Operations (RDO), United States of America (2023)
- Quebrada Blanca Operations (QB), Chile (2023)
- Carmen de Andacollo Operations (CdA), Chile (2023)

Detailed Disclosure of Self-Assessment and Validation Results

The disclosure of the preliminary results of the self-assessments and validated results for HVC and LCO are depicted below in Table 1. Due to the technical expertise of them, the assurance for management of tailings at HVC was undertaken by Priscu and Associates instead of PwC.

ICMM's Mining Principles	Self-assessed sites							Validated Sites			Comments
	Elkview Operations	Greenhills Operations	Fording River Operations	Red Dog Operations	Carmen de Andacollo Operations	Quebrada Blanca Operations	Trail Operations	Highland Valley Operations	Line Creek Operations	Teck Corporate	
Principle 1: Apply ethical business practices and sound systems of corporate governance and transparency to support sustainable development.											
1.1: Establish systems to maintain compliance with applicable law	●	●	●	●	●	●	●	●	●	●	There are mechanisms in place to identify relevant legal and other requirements. Legal requirements are documented and are communicated to personnel who must conform to them. Teck's Code of Ethics and Code of Sustainable Conduct affirms Teck's commitment to uphold ethical business principles, and comply with all government requirements where we conduct business. Systems are in place to track, assess, implement, communicate changes and evaluate compliance to relevant legal and other requirements. This includes the Doing What's Right program, which includes a whistle-blower hotline and web portal that are managed by an independent third party.
1.2: Implement policies and practices to prevent bribery, corruption and to publicly disclose facilitation payments	●	●	●	●	●	●	●	●	●	●	Teck's Code of Ethics and Anti-Bribery and Corruption Compliance Policy and Interpretation Guide affirm Teck's commitment to uphold ethical business principles, and mechanisms are in place to prevent potential bribery and corruption. See Teck's Approach to Business Ethics for information about how we manage business ethics, including relevant policies, management practices and systems. For performance related information, see pages 102 – 108 of the Business Ethics section of Teck's 2021 Sustainability Report .
1.3: Implement policies and standards consistent with the ICMM policy framework	⊗	⊗	⊗	⊗	⊗	⊗	⊗	⊗	⊗	●	This ICMM PE is applicable at the corporate level and therefore is not applicable at the operational level. An internal assessment of alignment to Teck policies and standards with the ICMM policy framework requirements has been undertaken. Teck's HSEC Management System, which includes Policies, Standards, Procedures and Guidelines is aligned with the ICMM Policy Framework. Refer to the 2021 Independent Assurance Report by PricewaterhouseCoopers LLP for results of the validation activities.
1.4: Assign accountability for sustainability performance at the Board and/or Executive Committee level	⊗	⊗	⊗	⊗	⊗	⊗	⊗	⊗	⊗	●	This ICMM PE is applicable at the corporate level and therefore is not applicable at the operational level. Board and Executive Committee level roles and responsibilities for ongoing oversight of sustainability performance in Teck are in place and documented. See pages 2 – 3 of Teck's Approach to Business and Sustainability for more information on the Teck Board and Executive Leadership in Sustainability.
1.5: Disclose the value and beneficiaries of financial and in-kind political contributions whether directly or through an intermediary	⊗	⊗	⊗	⊗	⊗	⊗	⊗	⊗	⊗	●	This ICMM PE is applicable at the corporate level and therefore is not applicable at the operational level. Systems are in place that provide for the approval, tracking and disclosure of the value and recipients of financial and in-kind political contributions. See Teck's Approach to Business Ethics for information on how we manage business ethics, including relevant policies, management practices and systems. Also see page our Political Contributions Policy and 108 of the Business Ethics section of our 2021 Sustainability Report and the 2021 Sustainability Performance Data Spreadsheet for performance related information on political contributions. We also detail the economic benefits of our activities, including payments to governments, wages, and other economic contributions, in our annual Economic Contributions Report
Principle 2: Integrate sustainable development in corporate strategy and decision-making processes.											
2.1: Integrate sustainable development principles into corporate strategy and decision-making processes relating to investments and in the design, operation and closure of facilities	⊗	⊗	⊗	⊗	⊗	⊗	⊗	⊗	⊗	●	Teck's sustainability strategy is inclusive of the ICMM sustainable development principles. There are mechanisms in place to review material sustainable development risks and opportunities in Teck's business strategy, planning and budgeting activities. See the Sustainability Strategy and commitments section on pages 3 – 4 and the Integrated Risk Management section on page 5 of Teck's Approach to Business and Sustainability . Also see our website for more information on our sustainability strategy and goals.
2.2: Support the adoption of responsible health and safety, environmental, human rights and labour policies and practices by joint venture partners, suppliers and contractors, based on risk	●	●	●	●	●	●	●	●	●	●	Teck Expectations for Suppliers and Contractors define Teck's expectations in the value chain with respect to health and safety, environmental, human rights and labour practices. See the Integrated Risk Management section on page 5 of Teck's Approach to Business and Sustainability . Also see our website for more information on risk management approach at Teck. See Teck's Approach to Supply Chain Management for information on how we manage our supply chain, including relevant policies, management practices and systems.

ICMM's Mining Principles	Self-assessed sites							Validated Sites			Comments
	Elkview Operations	Greenhills Operations	Fording River Operations	Red Dog Operations	Carmen de Andacollo Operations	Quebrada Blanca Operations	Trail Operations	Highland Valley Operations	Line Creek Operations	Teck Corporate	
Principle 3: Respect human rights and the interests, cultures, customs and values of employees and communities affected by our activities											
<p>3.1: Support the United Nations Guiding Principles on Business and Human Rights by developing a policy commitment to respect human rights, undertaking human rights due diligence and providing for, or cooperating in processes to enable the remediation of adverse human rights impacts that members have caused or contributed to</p>	🟡	🟡	🟡	🟡	🟡	🟡	🟡	🟡	🟡	🟡	<p>Teck has a Human Rights Policy and mechanisms to identify, assess, control, communicate and where necessary remediate potential/actual human rights risks and impacts. There is a grievance mechanism in place at every operation that is accessible to those potentially impacted by Teck activities.</p> <p>See Teck's Approach to Human Rights for information on how we manage human rights, including relevant policies, management practices and systems. Also see pages 66 – 70 of the Human Rights section of Teck's 2021 Sustainability Report for human rights performance related information.</p> <p>While Teck fully meets the human rights requirements as codified by the UNGPs, there are always opportunities for continuous improvement. In 2022 the focus will be on expanding our due diligence activities into the supply chain and ensuring that existing mechanisms for feedback are fully communicated as available to all underrepresented groups.</p>
<p>3.2: Avoid the involuntary physical or economic displacement of families and communities. Where this is not possible apply the mitigation hierarchy and implement actions or remedies that address residual adverse effects to restore or improve livelihoods and standards of living of displaced people</p>	🟢	🟢	🟢	🟢	🟢	🟢	🟢	🟢	🟢	🔴	<p>Teck is committed to avoiding involuntary resettlement. Where resettlement is required or requested, Teck conducts resettlement in compliance with accepted international standards, including World Bank Operational Policy 4.12 and the International Finance Corporation Performance Standard 5.</p> <p>See Teck's Approach to Human Rights for information on how we manage human rights, including relevant policies, management practices and systems. Also see page 68 of the Human Rights section of Teck's 2021 Sustainability Report.</p>
<p>3.3: Implement, based on risk, a human rights and security approach consistent with the Voluntary Principles on Security and Human Rights</p>	🟡	🟡	🟡	🟡	🟡	🟡	🟡	🟡	🟡	🔴	<p>Teck's Human Rights Policy indicates our alignment with the Voluntary Principles of Security and Human Rights and practices. Teck operations are not located in High-Risk or Conflict Affected countries.</p> <p>While Teck fully meets the human rights requirements as codified by the UNGPs, there are always opportunities for continuous improvement. In 2022 we will further develop Teck procedures that ensure that if or when interactions with local police or other security occur, they are made aware of Teck's expectations in relation to adherence to the Voluntary Principles on Security and Human Rights and that training is provided. We will also refresh our procedure that governs how human rights risk assessments are conducted at all operations.</p> <p>See Teck's Approach to Human Rights for information on how we manage human rights, including relevant policies, management practices and systems.</p> <p>See the Sustainability Strategy and commitments section on pages 3 – 4 and the Integrated Risk Management section on page 5 of Teck's Approach to Business and Sustainability. Also see our website for more information on our sustainability strategy and goals.</p>
<p>3.4: Respect the rights of workers by: not employing child or forced labour; avoiding human trafficking; not assigning hazardous/dangerous work to those under 18; eliminating harassment and discrimination; respecting freedom of association and collective bargaining; and providing a mechanism to address workers grievances</p>	🟢	🟢	🟢	🟢	🟢	🟢	🟢	🟢	🟢	🟢	<p>Teck Human Rights Policy, Human Resources Global Policy on Harassment, Code of Sustainable Conduct and Code of Ethics govern respecting the rights of workers by not employing child or forced labour, avoiding human trafficking, not assigning hazardous/ dangerous work to those under 18, eliminating harassment and discrimination and respecting freedom of association and collective bargaining.</p> <p>See Teck's Approach to Human Rights for information on how we manage human rights, including relevant policies, management practices and systems, and see Teck's Approach to Our People and Culture for information on our management approach to equity, diversity and inclusion, our people and workplace culture. See pages 66 – 70 of our 2021 Sustainability Report for performance in human rights, and pages 71 – 82 of our 2021 Sustainability Report for performance in our people and workplace culture.</p>
<p>3.5: Remunerate employees with wages that equal or exceed legal requirements or represent a competitive wage within that job market (whichever is higher), and assign regular and overtime working hours within legally required limits</p>	🟢	🟢	🟢	🟢	🟢	🟢	🟢	🟢	🟢	🟢	<p>Teck Human Rights Policy, Code of Sustainable Conduct and Code of Ethics govern respecting the rights of workers. Teck has mechanisms in place to govern fair employee remuneration and to monitor working hours against legally required limits.</p> <p>See Teck's Approach to Our People and Culture and Teck's Approach to Our People and Culture for information on our management approach to our people and workplace culture, including our commitment to living wage and remuneration practices. See pages 80 – 81 of our 2021 Sustainability Report for performance related information on employee compensation.</p>

ICMM's Mining Principles	Self-assessed sites							Validated Sites			Comments
	Elkview Operations	Greenhills Operations	Fording River Operations	Red Dog Operations	Carmen de Andacollo Operations	Quebrada Blanca Operations	Trail Operations	Highland Valley Operations	Line Creek Operations	Teck Corporate	
3.6: Respect the rights, interests, aspirations, culture and natural resource-based livelihoods of Indigenous Peoples in project design, development and operation; apply the mitigation hierarchy to address adverse impacts; and deliver sustainable benefits for Indigenous Peoples	●	●	●	●	●	●	●	●	●	⊗	Teck has an Indigenous Peoples Policy and Human Rights Policy which underpin Teck's commitment to respecting Indigenous People. See Teck's Approach to Relationships with Indigenous Peoples for information on how we manage our relationships with Indigenous Peoples, including relevant policies, management practices and systems. Also see pages 95 – 101 of our 2021 Sustainability Report for performance related information on our relationships with Indigenous Peoples.
3.7: Work to obtain the free, prior and informed consent of Indigenous Peoples where significant adverse impacts are likely to occur, as a result of relocation, disturbance of lands and territories or of critical cultural heritage, and capture the outcomes of engagement and consent processes in agreements	●	●	●	●	●	●	●	●	●	⊗	Teck has an Indigenous Peoples Policy and mechanisms in place to support seeking and maintaining FPIC of Indigenous People. See Teck's Approach to Relationships with Indigenous Peoples for information on how we manage our relationships with Indigenous Peoples, including relevant policies, management practices and systems. Also see Teck's Approach to Human Rights for information on our approach to managing human rights. Also see pages 95 – 101 of our 2021 Sustainability Report for performance related information on our relationships with Indigenous Peoples.
3.8: Implement policies and practices to respect the rights and interests of women and support diversity in the workplace	●	●	●	●	●	●	●	●	●	●	Teck has an Equity, Diversity and Inclusion Policy , a Board Diversity strategy and mechanisms to respect the rights and interests of women and support diversity in the workplace. Our People is one of our eight strategic themes with the strategic priority to foster a workplace where everyone is included, valued and equipped for today and the future. See Teck's Approach to Our People and Culture for information on how we manage matters related to our workforce, workplace culture and equity, diversity and inclusion, including relevant policies, management practices and systems. Also see pages 72 – 81 of our 2021 Sustainability Report for performance related information on our equity, diversity and inclusion practices.
Principle 4: Implement effective risk-management strategies and systems based on sound science, and which account for stakeholder perceptions of risk.											
4.1: Assess environmental and social risks and opportunities of new projects and of significant changes to existing operations in consultation with interested and affected stakeholders, and publicly disclose assessment results	●	●	●	●	●	●	●	●	●	●	Teck has robust practices to assess environmental and social risks and opportunities. This includes performing these assessments during planning of both new projects and significant changes to existing operations. Assessments are performed in consultation with our Communities of Interest as defined by the regulatory environments under which we operate. See pages 5 – 9 of Teck's Approach to Business and Sustainability for more information.
4.2: Undertake risk-based due diligence on conflict and human rights that aligns with the OECD Due Diligence Guidance on Conflict-Affected and High Risk Areas, when operating in, or sourcing from, a conflict-affected or high-risk area	◐	◐	◐	◐	◐	◐	◐	◐	◐	◐	Teck does not operate in Conflict Affected or High-Risk Areas. All operations received a "partially meets" overall rating because there are improvement actions planned for 2022 and beyond to enhance our human rights due diligence across our supply chain. This includes expanding the frequency of audits across suppliers and following-up on the actions noted from previous due diligence conducted. Teck has a Human Rights Policy . See Teck's Approach to Human Rights for information on how we manage human rights, including relevant policies, management practices and systems, and see pages 66 – 70 of our 2021 Sustainability Report for performance in human rights.

ICMM's Mining Principles	Self-assessed sites							Validated Sites			Comments
	Elkview Operations	Greenhills Operations	Fording River Operations	Red Dog Operations	Carmen de Andacollo Operations	Quebrada Blanca Operations	Trail Operations	Highland Valley Operations	Line Creek Operations	Teck Corporate	
<p>4.3: Implement risk-based controls to avoid/prevent, minimise, mitigate and/or remedy health, safety and environmental impacts to workers, local communities, cultural heritage and the natural environment, based upon a recognised international standard or management system</p>	●	●	●	●	●	●	●	●	●	⊗	<p>The HSEC Management Standards including the HSEC Risk Management Standard outline the process for risk management at Teck.</p> <p>Teck operations have ISO 14001 certified Environmental Management Systems. Quebrada Blanca (QB) is currently not ISO 14001 certified. Certification activities are planned for 2022 at QB.</p> <p>See the Integrated Risk Management section on page 5 of Teck's Approach to Business and Sustainability pages 5 – 9 of Teck's Approach to Business and Sustainability and pages 2 – 3 of Teck's Approach to Environmental Management for more information. Also see our website for more information on risk management approach at Teck.</p>
<p>4.4: Develop, maintain and test emergency response plans. Where risks to external stakeholders are significant, this should be in collaboration with potentially affected stakeholders and consistent with established industry good practice</p>	●	●	●	●	●	●	●	●	●	⊗	<p>Teck has mechanisms to develop, maintain and test emergency response plans in collaboration with emergency agencies and other Communities of Interest who may be affected.</p> <p>Teck's Approach to Emergency Preparedness and Planning describes our approach to emergency preparedness.</p>
<p>Principle 5: Pursue continual improvement in the health and safety performance with the ultimate goal of zero harm.</p>											
<p>5.1: Implement practices aimed at continually improving workplace health and safety, and monitor performance for the elimination of workplace fatalities, serious injuries and prevention of occupational diseases, based upon recognised international standard or management system</p>	●	●	●	●	●	●	●	●	●	●	<p>Teck has Standards, Policies, Guidelines, Operating Procedures and Systems in place for managing health and safety risks. These include Teck's Health and Safety Policy, Code of Sustainable Conduct, Critical Control Standards and the Courageous Safety Leadership Program. Health and safety is one of our eight strategic sustainability themes with a strategic priority to eliminate fatalities, serious injuries and occupational disease.</p> <p>See Teck's Approach to Health and Safety for information on how we manage health and safety, including relevant policies, management practices and systems, and see pages 56 – 65 of our 2021 Sustainability Report for performance related information on health and safety.</p>
<p>5.2: Provide workers with training in accordance with their responsibilities for health and safety, and implement health surveillance and risk-based monitoring programmes based on occupational exposures</p>	●	●	●	●	●	●	●	●	●	●	<p>Teck has Standards, Policies, Guidelines, Operating Procedures and Systems in place for managing health and safety and implementing health surveillance and risk-based monitoring programs. These include Teck's Health and Safety Policy, Code of Sustainable Conduct, Critical Control Standards, Courageous Safety Leadership Program and Occupational Hygiene Program Standard.</p> <p>See Teck's Approach to Health and Safety for information on how we manage health and safety, including relevant policies, management practices and systems, and see pages 56 – 65 of our 2021 Sustainability Report for performance related information on health and safety.</p>
<p>Principle 6: Pursue continual improvement in environmental performance issues, such as water stewardship, energy use and climate change</p>											
<p>6.1: Plan and design for closure in consultation with relevant authorities and stakeholders, implement measures to address closure-related environmental and social aspects, and make financial provision to enable agreed closure and post-closure commitments to be realised</p>	●	●	●	●	●	●	●	●	●	●	<p>Teck has developed and approved a Closure Standard, Closure Procedure and Closure Guideline managing closure at Teck. This suite of documents was developed as an identified improvement plan for closure and reclamation activities at Teck. There is a robust implementation plan in place to implement the Closure Standard. Procedure and Guideline by 2023.</p> <p>Biodiversity and reclamation is one of our eight strategic sustainability themes, with a strategic priority to work towards securing a net positive impact on biodiversity.</p> <p>See Teck's Approach to Biodiversity and Reclamation for information on how we manage biodiversity and reclamation, including relevant policies, management practices and systems. See pages 16 – 21 of our 2021 Sustainability Report for our performance on closure and reclamation. Also see the Biodiversity and Reclamation page on our website for more information.</p>
<p>6.2: Implement water stewardship practices that provide for strong and transparent water governance, effective and efficient management of water at operations, and collaboration with stakeholders at a catchment level to achieve responsible and sustainable water use</p>	●	●	●	●	●	●	●	●	●	●	<p>Teck has Standards, Policies, Guidelines and Operating Procedures in place for managing water, including Teck's Water Policy. Water is one of our eight strategic sustainability themes, with a strategic priority to</p> <ul style="list-style-type: none"> •Transition to seawater or low-quality water sources for all operations in water-scarce regions by 2040 •Implement innovative water management and water treatment solutions to protect water quality downstream of all our operations <p>Linked sustainability goals: By 2025, design all development projects in water-scarce regions with a seawater or low-quality water source; By 2025, implement new source control or mine design strategies and water treatment systems to further advance efforts to manage water quality at our operations.</p> <p>See Teck's Approach to Water Stewardship for information on how we steward water, including our policies, our alignment to the ICMM water framework, management practices and systems. Also see pages 47 – 55 of our 2021 Sustainability Report for performance related information on water stewardship.</p>

	Elkview Operations	Greenhills Operations	Fording River Operations	Red Dog Operations	Carmen de Andacollo Operations	Quebrada Blanca Operations	Trail Operations	Highland Valley Operations	Line Creek Operations	Teck Corporate	
<p>6.3: Design, construct, operate, monitor and decommission tailings disposal/storage facilities using comprehensive, risk-based management and governance practices in line with internationally recognised good practice, to minimise the risk of catastrophic failure</p>	●	●	●	●	●	●	⊗	●	⊗	●	<p>Teck has Standards, Policies, Guidelines and Operating Procedures in place for managing Tailings. As a member of the ICMM, Teck has committed to conforming with the Global Industry Standard on Tailings Management (GISTM) by August 2023.</p> <p>See Teck's Approach to Tailings Management and the Tailings Management page on our website for information on how we manage tailings, including relevant policies, management practices and systems. Also see pages 40 – 46 of our 2021 Sustainability Report for performance related information on tailings.</p>
<p>6.4: Apply the mitigation hierarchy to prevent pollution, manage releases and waste, and address potential impacts on human health and the environment</p>	●	●	●	●	●	●	●	●	●	⊗	<p>Teck has mechanisms in place to identify, assess, and control sources of pollution and their potential impacts on human health and the environment.</p> <p>See our Approach to Biodiversity and Reclamation for more information about how we manage biodiversity and reclamation, including relevant policies, management practices and systems. This document includes information on Teck's mitigation hierarchy, which we apply to all significant sustainability risks.</p> <p>An improvement opportunity identified at EVO, FRO, GHO and LCO and is being addressed through the HSEC Management System Improvement Program. This opportunity involves the ongoing application of the Elk Valley Water Quality Plan to mitigate historic water quality concerns.</p>
<p>6.5: Implement measures to improve energy efficiency and contribute to a low-carbon future, and report the outcomes based on internationally recognised protocols for measuring CO2 equivalent (GHG) emissions</p>	●	●	●	●	●	●	●	●	●	●	<p>Teck's Climate Change Policy and Climate Strategy Framework govern Teck's approach to Climate Change. Teck recognizes the important role we play in the shift to a low-carbon economy and have established a strategy with short- and long-term goals for reducing emissions, with the ultimate goal of being carbon-neutral by 2050. See Teck's Climate Change Outlook 2021 Report for our alignment with the disclosure recommendations of the Task Force for Climate-Related Financial Disclosures (TCFD).</p> <p>Linked sustainability goals: Reduce the carbon intensity of our operations by 33% by 2030; Procure 50% of our electricity demands in Chile from clean energy by 2025 and 100% by 2030; and accelerate the adoption of zero-emissions alternatives for transportation by displacing the equivalent of 1,000 internal combustion engine (ICE) vehicles by 2025</p> <p>See our Approach to Climate Change for information on how we manage greenhouse gas emissions and energy use, including relevant policies, management practices and systems. Also see pages 22 – 33 of our 2021 Sustainability Report for performance related information on climate change, including data on our emissions.</p>
<p>Principle 7: Contribute to the conservation of biodiversity and integrated approaches to land-use planning.</p>											
<p>7.1: Neither explore nor develop new mines in World Heritage Sites, respect legally designated protected areas, and design and operate any new operations or changes to existing operations to be compatible with the value for which such areas were designated</p>	●	●	●	●	●	●	●	●	●	●	<p>Code of Sustainable Conduct includes Teck commitment to refrain from exploring or mining in UNESCO World Heritage sites and to respect all legally designated protected areas, including International Union for Conservation of Nature (IUCN) category Ia, Ib, II, III or IV protected areas.</p> <p>See our Approach to Biodiversity and Reclamation for more information about how we manage biodiversity and reclamation, including relevant policies, management practices and systems. Also see pages 16 – 21 of our 2021 Sustainability Report for performance related information on biodiversity and reclamation.</p>
<p>7.2: Assess and address risks and impacts to biodiversity and ecosystem services by implementing the mitigation hierarchy, with the ambition of achieving no net loss of biodiversity</p>	●	●	●	●	●	●	●	●	●	●	<p>Teck has Standards, Policies, Guidelines, Operating Procedures in place for managing biodiversity. Biodiversity and reclamation is one of our eight strategic themes with the strategic priority of working towards securing a net positive impact on biodiversity.</p> <p>Linked sustainability goal: By 2025, all operating sites have and are implementing plans to secure net positive impact (NPI).</p> <p>See our Approach to Biodiversity and Reclamation for more information, including relevant policies, management practices and systems. This document includes information on Teck's mitigation hierarchy and how we use it as a framework to achieve our vision of NPI. Also see pages 16 – 21 of our 2021 Sustainability Report for performance related information on biodiversity and reclamation.</p>
<p>Principle 8: Facilitate and support the knowledge-base and systems for responsible design, use, re-use, recycling and disposal of products containing metals and minerals.</p>											

ICMM's Mining Principles	Self-assessed sites							Validated Sites			Comments
	Elkview Operations	Greenhills Operations	Fording River Operations	Red Dog Operations	Carmen de Andacollo Operations	Quebrada Blanca Operations	Trail Operations	Highland Valley Operations	Line Creek Operations	Teck Corporate	
<p>8.1: In project design, operation and de-commissioning, implement cost-effective measures for the recovery, re-use or recycling of energy, natural resources and materials</p>	●	●	●	●	●	●	●	●	●	●	<p>Teck has mechanisms in place for responsible production and incorporates sustainable development principles into the project life cycle. Responsible production is one of our eight strategic themes with strategic priorities to:</p> <ul style="list-style-type: none"> •Be a leader in responsibly providing the metals and minerals needed for the transition to an economy focused on reducing waste and keeping products in use and, •Work towards disposing zero industrial waste by 2040. <p>Linked sustainability goals: By 2025, establish site-based industrial waste inventories and plans to turn waste into useful and appropriate products. Based on these inventories and plans, set goals for industrial waste reduction; By 2025, develop and implement a responsible producer program and “product passport” that is traceable through the value chain; Be a leader in product stewardship by continuing to implement our Materials Stewardship program and produce secondary metals at our Trail Operations.</p> <p>See Teck’s Approach to Responsible Production for information including relevant policies, management practices and systems. Also see pages 34 – 39 of our 2021 Sustainability Report for performance related information on responsible production and waste management.</p>
<p>8.2: Assess the hazards of the products of mining according to UN Globally Harmonised System of Hazard Classification and Labelling or equivalent relevant regulatory systems and communicate through safety data sheets and labelling as appropriate</p>	●	●	●	●	●	●	●	●	●	●	<p>Teck has mechanisms in place to identify, assess and classify the hazards of the products of the operations according to UN Globally Harmonised System of Hazard Classification and Labelling.</p>
<p>Principle 9: Pursue continual improvement in social performance and contribute to the social, economic and institutional development of host countries and communities.</p>											
<p>9.1: Implement inclusive approaches with local communities to identify their development priorities and support activities that contribute to their lasting social and economic wellbeing, in partnership with government, civil society and development agencies, as appropriate</p>	●	●	●	●	●	●	●	◐	●	●	<p>Teck’s Social Management and Responsibility at Teck (SMART) Framework provides the mechanisms for development and response for communities. Communities and Indigenous Peoples is one of our eight strategic sustainability themes with a focus on collaborating with communities and Indigenous Peoples to generate economic benefits, advance reconciliation efforts and improve community well-being.</p> <p>Linked sustainability goals: Increase local employment and procurement opportunities by 2025 to deliver direct economic benefits to communities; Achieve greater representation of Indigenous Peoples across our business by 2025 by increasing employment and procurement through business development, capacity-building, education and training opportunities; and deliver positive social, economic and environmental outcomes for communities and Indigenous Peoples by contributing \$100 million to community organizations and global initiatives, including our Zinc & Health and Copper & Health programs, by 2025.</p> <p>Teck discloses contributions through our annual Sustainability Report and our Economic Contribution Report.</p> <p>See Teck’s Approach to Relationships with Communities for information on how we manage relationships with communities, including relevant policies, management practices and systems. Also see pages 83 – 94 of our 2021 Sustainability Report for performance related information on relationships with communities, including data on community investments.</p> <p>An opportunity to improve was identified at HVC, whereby issues raised by COI were not resolved within a “meaningful” timeframe. HVC employee turnover and therefore resourcing was identified as a primary contributing factor, and this gap is being closed with recruitment and capacity building underway.</p>
<p>9.2: Enable access by local enterprises to procurement and contracting opportunities across the project life-cycle, both directly and by encouraging larger contractors and suppliers, and also by supporting initiatives to enhance economic opportunities for local communities</p>	●	●	●	●	●	●	●	●	●	●	<p>Teck’s SMART Framework provides the mechanisms for enabling access by local enterprises to procurement and contracting opportunities and supporting initiatives to enhance economic opportunities for local communities. As above, Communities and Indigenous Peoples is one of our eight strategic sustainability themes with a strategic to collaborate with communities and Indigenous Peoples to generate economic benefits, advance reconciliation efforts and improve community well-being.</p> <p>See Teck’s Approach to Relationships with Communities for information on how we provide economic benefits, and especially procurement opportunities to communities. Also see pages 83 – 94 of our 2021 Sustainability Report for performance related information on relationships with communities, including data on community investments and local procurement.</p>
<p>9.3: Conduct stakeholder engagement based upon an analysis of the local context and provide local stakeholders with access to effective mechanisms for seeking resolution of grievances related to the company and its activities</p>	●	●	●	●	●	●	●	◐	●	⊗	<p>Teck’s SMART Framework provides the mechanisms and required activities that support operations to understand local context and to provide effective mechanisms for seeking resolution of grievances and/or potential impacts. More information on our approach to engaging with stakeholders and Indigenous Peoples can be found on our website, and on Teck’s Approach to Business and Sustainability.</p> <p>Also see pages 83 – 94 of our 2021 Sustainability Report for performance related information on relationships with communities, and pages 95 – 101 for performance related information on relationships with Indigenous Peoples, including information on engagement activities.</p> <p>An opportunity to improve was identified at HVC, whereby issues raised by COI were not resolved within a “meaningful” timeframe by HVC. HVC employee turnover and resourcing was identified as a primary contributing factor, and this gap is being closed with recruitment and capacity building underway.</p>

9.4: Collaborate with government, where appropriate, to support improvements in environmental and social practices of local artisanal and small-scale mining (ASM)	●	●	●	●	●	●	●	●	●	⊗	<p>Teck has mechanisms in place to support improvements in environmental and social practices of local artisanal and small-scale miners (ASM). Teck monitors operations for the potential presence of artisanal or small-scale miners on or adjacent to our operations, and works to reduce health and safety risks, as well as finding alternative livelihoods and environmental protection.</p> <p>See Teck's Approach to Human Rights for information on how we manage human rights, including relevant policies, management practices and systems. Also see page 68 of our 2021 Sustainability Report for performance related information on ASM.</p>
Principle 10: Proactively engage key stakeholders on sustainable development challenges and opportunities in an open and transparent manner, effectively report and independently verify progress and performance.											
10.1: Identify and engage with key corporate-level external stakeholders on sustainable development issues in an open and transparent manner	⊗	⊗	⊗	⊗	⊗	⊗	⊗	⊗	⊗	●	<p>This ICMM PE is applicable at the corporate level only, and therefore not applicable at the operational level.</p> <p>Teck has mechanisms in place to identify and engage with key corporate-level external stakeholders on issues relevant to the stakeholder. More information on our approach to engaging with stakeholders and Indigenous Peoples can be found on our website, and on Teck's Approach to Business and Sustainability.</p>
10.2: Publicly support the implementation of the Extractive Industries Transparency Initiative (EITI) and compile information on all material payments, at the appropriate levels of government, by country and by project	●	●	●	●	●	●	●	●	●	●	<p>Teck participates in the EITI through our ICMM membership. EITI has assessed Teck's adherence to its performance expectations of companies and the summary of our results are publicly available on the EITI website.</p> <p>See our Approach to Business Ethics for information on how we manage business ethics, including relevant policies, management practices and systems.</p> <p>Also see the 2021 Sustainability Performance Data spreadsheet for performance related information on political contributions and tax payments aligned to the GRI standards. We also detail the economic benefits of our activities, including payments to governments, wages, and other economic contributions, in our annual Economic Contributions Report.</p>
10.3: Report annually on economic, social and environmental performance at the corporate level using the GRI Sustainability Reporting Standards	⊗	⊗	⊗	⊗	⊗	⊗	⊗	⊗	⊗	●	<p>This ICMM PE is applicable at the corporate level only, and therefore not applicable at the operational level.</p> <p>Teck's annual Sustainability Report has been prepared in accordance with the Global Reporting Initiative (GRI) Standards: Core option and the GRI G4 Mining and Metals Sector Disclosures. Teck has been reporting in alignment with the Global Reporting Initiative disclosure guidelines (now Standards) for over 20 years.</p>
10.4: Each year, conduct independent assurance of sustainability performance following the ICMM guidance on assuring and verifying membership requirements	⊗	⊗	⊗	⊗	⊗	⊗	⊗	⊗	⊗	●	<p>This ICMM PE is applicable at the corporate level only, and therefore not applicable at the operational level.</p> <p>Independent assurance undertaken by PricewaterhouseCoopers LLP and included as part of the annual sustainability report. See the 2021 Independent Assurance Report for more details.</p>
