

Germanium

Germanium Dioxide TG 11 Solution

Catalyst for PET Polymer Production

Material:Germanium Dioxide TG11 Solution
 Physical Form: Clear, colourless solution
 Germanium Dioxide Content: 100 ± 1 grams per litre
 Chloride:100 ppm (mg/kg) maximum
 Organic Acid Content:335 grams per litre maximum
 Water Content:45% wt/wt maximum
 Ethylene Glycol: ≈24% wt/wt
 Diethylene Glycol:0.1% wt/wt maximum
 Specific Gravity: 1.230-1.245
 Packaging:55 litre & 210 litre drums

Containers are in accordance with UN regulations.
